AND RIVER PLATE NEWS.

No. 2,290—Ninth Year.] BUENOS AYRES, WEDNESDAY, OCTOBER 6, 1869 [Circulation 3,000.

MAUA BANK,
101–103 CALLE CANGALLO.

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank :—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

P. P. Maua & Co.
M. A. de FREITAS AMORIM.

LOUDET,
PHOTOGRAPHER,
344—CALLE PIEDAD—344.
Mons. LOUDET,

Begs to inform the Public of Buenos Ayres and the Argentine Republic, that he continues to take Photographs for the Carte de Visite, full length, and in every other style.

Mons. Loudet visited the Great Exhibition of Paris in 1867, in order to make himself, thoroughly and practically acquainted with every improvement in the above important art; and, since his return from Europe, he has placed his Establishment on precisely the same footing as those of the first Photographers in Paris, London, and the principal cities of Europe. The Apparatus, has been selected from the most approved of these in the Paris Exhibition, several of the inventions having received Prize Medals, among which may be mentioned those of Dallmeyer, of London, &c.

Voigtlander e Sohn. The saloons [in which may be included the Atelier] are handsomely furnished and commodious.

Mons. LOUDET feels the most perfect confidence in saying he can produce likenesses in every aspect, infinitely superior to those which have already met with such unbounded approbation from the distinguished Public of Buenos Ayres.

The Public are respectfully invited to inspect the Gallery. 98,f16

Hard Dollars, 2,902,765·61.
No. of Policies,..2,812 | Securities,$f1.164,161,79

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

☞ Subscribers enrolled and all necessary information given at the Head Offices of the Company, 118, Calle Piedad, Buenos Ayres.

PHARMACEUTICAL HALL
30—RIVADAVIA—30
PALMAM QUI MERUIT FERAT.
PENEDOS VEGETABLE SYRUP.

THE MOST CERTAIN AND SPEEDY REMEDY EVER DISCOVERED FOR ALL DISORDERS OF THE CHEST,
ASTHMA AND CONSUMPTION.

No other diseases sweep away so many thousands as ASTHMA and CONSUMPTION, and not because of any want of means of checking them, on their first approach if those attacked would adopt proper remedies early, but, unfortunately, these are neglected, and recourse is not had until the disease is firmly established in the Lungs, from whence (until lately) Physicians had not discovered any means of dislodging it. Professor Penedo's Syrup supplies now that DESIDERATUM to sufferers, as the rapidly extending fame of this Preparation testifies it.

COLDS, PAIN IN THE CHEST, SHORTNESS OF BREATH, PHLEGM, AND INFLUENZA.

A difficulty of breathing, or a sense of tightness or pain in THE CHEST after exertion, a cough or an expectoration of phlegm, however slight at first, will surely prove the germ from which one or other fatal diseases will take their rise, if not early removed, in such cases,

PENEDO'S VEGETABLE SYRUP

must be taken three times a-day, as directed, or oftener, according to the urgency of the symptoms, and this will be found sufficient for the cure of all recent affections of the Lungs.

COUGHS.

This severe and most dangerous disease very frequently becomes most troublesome, which, if not ending in Consumption or Asthma, proves most distressing and weakening up to the patient.

PENEDO'S VEGETABLE SYRUP should be taken until it is entirely removed, which it will speedily do if taken regularly.

WEAKNESS OF THE VOICE AND HOARSENESS.

In all cases where the diseases have occurred suddenly from Colds, exertion of the Voice, &c.

PENEDO'S VEGETAALE SYRUP

has been most successful in effecting a radical cure in cases which have existed many months.

PENEDO'S VEGETABLE SYRUP

is of the highest utility in all diseases of the Chest and Lungs. This fact is proved by the many testimonials handed to the Proprietor by men of acknowledged ability and reputation.

The following certificate is one of many that have been received by the Professor:—

Rio Janeiro, May 1, 1869.
Professor Penedo.

Dear Sir,—

I feel bound to acknowledge the marvellous results effected by the Syrup, called

"VEGETABLE DE PENEDO,"

In the Province of Rio Grande, and it is, in my opinion, a most valuable medicine in all cases of Pulmonic Affections on Diseases of the Chest, many of my patients, who have had occasion to use your Specific for these complaints, have assured me that they invariably derived the greatest benefit.

GREEK COLLEGE.
(LITZMAN'S.)
CALLE TACUARI.

The Parents of the Pupils of the above College are requested to take Notice, that on the 15th of July the Direction of the above College will be undertaken by Mrs. C. Brenan and her sister, Miss Colclough, assisted by a large staff of competent Teachers, Mr. Brenan also giving it as much of his attention as will be possible, consistent with the duties of his and Mr. Mulcahy's English College for Young Gentlemen, 135 Calle Suipacha.

Mr. and Mrs. Litzsman's departure for Europe has been for some time deferred, owing to the difficulty of meeting with competent parties having the experience necessary to fill satisfactorily so responsible a position.

Mr. and Mrs. Litzman have now much pleasure in introducing and recommending the above parties, they having had for eight years one of the largest and most fashionably attended Boarding and Day School in Manchester.

Paper 11⅛ dis:

IMPORTANT FROM PATAGONES

THE RIO NEGRO FRONTIER.

We have letters from Patagones to the 25th ult., giving a detailed account of the expedition under Col. Murga and Capt. Ramirez as far as the island of Choelechoel. The land force comprised 130 men under Col. Murga, while the steamer "Transporte" ascended the Rio Negro under the skilful direction of Capt. Zeferino Ramirez. For some years back there has been much talk of placing a strong frontier garrison at Choelechoel, which is about 90 leagues from the town of Patagones and the mouth of the Rio Negro. The object of the present expedition seems to have been to ascertain whether the Rio Negro was navigable at low water seasons, and to see what facilities Choelechoel offered both as a strategic point and for colonization purposes. We are happy to find that the result has been most satisfactory.

Murga's force, including also two English gentlemen who accompanied the Colonel, arrived abreast of the island of Choelechoel and there found the Cacique Limonao, whose two sons are at present in this city negotiating with the National Government: the cacique has about 50 Indians with him. The Englishmen were much pleased with the quality of the camps, and said they had never before seen finer land: the grass is so high and thick that one can hardly gallop through it, and there is an abundant supply of good timber along the banks of the river. Captain Ramirez had a difficult task in ascending the river, without pilot, without coals, without engineer; he found, however, plenty of water at every part although his steamer drew 5 feet, and he reports the river perfectly navigable even at this, the lowest season of its water level. It is, we believe, the first time that a steamboat whistle has been heard at Choelechoel. and Capt. Ramirez is now come to solicit a steamer of lighter draught, wherewith he will be able to ascend towards the head-waters of the Negro in the Cordillera.

The Rio Negro has numerous turns and windings, which makes the route by water much longer than by land. Capt. Ramirez reports its usual depth at 15 feet, with 5 feet at the passes or fords, which are few in number. In winter time the river rises 10 feet high er and remains so for severel months. The chief Indian route, when coming to invade and plunder our frontiers, is across the Rio Negro at Choelechoel, not that the river here is fordable, for even at low seasons they have to swim their horses across, but all other routes are long and difficult for them, besides being devoid of fresh water. Such is the Indian traffic 'via' Choelechoel that two marauding parties passed while Murga's expedition happened to be there; one of them comprised only 10 Indians, and these were pursued and captured; the other party comprised 150 red men, and their number being so large it was not thought prudent to molest them, although they drove away 1500 horned cattle that they had just stolen from some poor estancieros. The booty of the smaller party consisted of 150 horses, which Murga has taken: the 10 Indians were sent prisoners in the steamer down to Patagones.

Col. Murga met at Choelechoel one of the French gentlemen who have recently arrived with the object of making a scientific journey of exploration through Patagonia and across the Cordillera. He is living with the Indians on the most friendly terms, waiting the return of his comrade from Montevideo who is making all final arrangements for the expedition. The last explorer who had the courage to travel for some years with the Patagonian Indians was Mr. Cox of Valparaiso, and some years previous the late Captain Smyley, for sometime United States Vice Consul at the Falkland Islands: two natural sons of Smyley's are now Capitanejos among the Indians and go by the name of "Los Hijos del Ingles," being remarkable for their intelligence and fair complexion.

It is feared in Patagones that the Indians will take a general alarm from Murga's expedition and make a sweeping invasion so as to prevent the occupation of Choelechoel, which would put a complete stop to their little predatory excursions across the border. We are glad to learn that the Minister of War takes up the matter with great zeal, and intends to supply Col. Murga with all the necessary elements and forces for making Choelechoel the centre of our Southern frontier. Not a moment is to be lost, and one of the first steps should be to give Captain Ramirez a steamboat of light draught which will render the Rio Negro a continuous frontier line. It is unnecessary to remind the National Government that there are numbers of English and other foreign settlers who are at present laboring strenuously and successfully for the advancement of this remote part of the Argentine Republic, and we hope they will not be abandoned to the Indians. If the projected settlemedt of Choelechoel be realized we shall hear very little more of the Indians on this side of the Rio Negro, and President Sarmiento may then say in reality as one of his predecessors said in jest—"that he will answer for the tail of every cow in the Province."

LATEST FOM RIO.

Sept. 25, 1869.

The general belief here is that the world will come to an end on the 5th of October. I send you herewith a hasty sketch of the panic, but nothing can depict the general alarm, and it is feared that when the news reaches the interior it will interfere with the crops; but the Government is powerless, and the editors are too much frightened to try to calm the public mind. What it will all end in none can say, but our place is here on the day in question to send a full and true report of what occurs to the 'Standard.'

Gen. Pannero is in weak health; he has just come down from Petropolis, he says, to attend the closing of the Chambers; but I believe, if the truth were told, it is to be well clear of Petropolis on the 5th October. We sold him a handbook, and he has ordered the 'Standard.'

Mr. Peter Denby, who is at present stopping at Bennett's, reports having yesterday discovered a rather novel way which the Policia has adopted to secure deserters, handcuffs and irons are no longer necessary; the new plan is to cut the buttons off the man's pantaloons, this necessitates the poor fellow to hold with one hand his unmentionables, and ergo he cannot run far. Yesterday he came up on a man in charge of a policeman in this plight, and on enquiring into the cause, was told that this was the new rule in the Policia.

It is the general belief now, that the present Ministry goes out on the budget question, even the new Ministers are already spoken of, and the Baron Cotajibe mentioned as premier. The finances of Brazil are in a sad state, Treasury empty, bills coming up, £100,000 in gold to be paid next month to the bondholders, and worse than all, the war still going on and more expensive than ever; the merchants of Rio are loud in their complaints about the general state of trade, als though as faras we can judge business is very brisk—the total amount of exchange passed for the packet exceeded half a million sterling, the shipments of coffee increasing, sugar crop also greatly augmented, and much attention now paid to cotton growing at St. Paulo, where we hear the crop pays well, thus in fact if the drain on the public treasury by the war could be stopped, Brazilian affairs would not look so desperate.

Owing to a heavy rain storm having set in on Thursday, and which still continues, we have been unable to make a trip to Santos and St. Paulo; it has rained for the last two days and nights in torrents, and the beautiful swimming and shower bath at Mr. Bennett's was all but swept away on Friday by the rushing torrents from the mountain.

Bennett's is crowded, Mr. Gordon, manager of the London and Brazilian Bank, with his family has moved out there for the season; Baroness Pineda with her daughter, Madame Andrade, have also take rooms for the season, and but for the wet weather, and the dreaded 5th of October, the place would be unusually gay.

Mr. Hobkirk, it is rumoured, will shortly leave for Australia, and Mr. Nathan's brother, for the United States. Mr. Buckley Mathew leaves for England on leave of absence in January, and Messrs. Braga, Meliton Souza and Viera purpose spending the hot summer months this year in the Plate.

The demand of the Minister for 60,000 men for the ensuing year, has caused a tremendous hubbub; in every circle people naturally ask for what purpose such an armed force is required, and the general impression is that the Legislature will refuse to sanction the measure. Brazil can spare anything better than men at the moment; her industries in the country districts languish, owing to the bone and sinew of the country having perished in Paraguay. If the Government therefore requires such a force as 60,000 men, then some keen Ascasubi had better be looked for to recruit in Europe.

Mr. Scully, editor of the 'Anglo Brazilian Times,' makes a most complimentary notice of the River Plate Handbook in his last issue. Herewith we send the paper from which the notice can be extracted and republished. We have called personally on Mr. Scully to thank him for his very kind remarks. It appears President Sarmiento is a great friend of Mr. Scully's, and when on his way from Europe to the Plate landed at Rio for the purpose of visiting the Emperor and Mr. Scully. Mr. Scully says that President Sarmiento, if he studies the interests of his country, will have in every reading-room in Europe a copy of the Handbook. I hope President Sarmiento will at last do something for the Handbook; it is really surprising that a book-maker and a scholar should hang fire so long.

Gold continues rising, and closed to day at 128900; it is rumoured that the Government must buy a very large sum shortly to pay interest on their bonds. Exchange keeps firm at 19d. and the brokers think it will keep at this rate. Money is easy, and can be got everywhere at 8 per cent. Jerked beef men we hear are doing a good trade, and shipments from the Plate pay well.

The new tramway of Messrs. Duncan Phail's company has hundreds of navvies hard at work, and the rails are being laid along the streets with genuine American rapidity. There is a hitch about some land, but the question is one of 'mil vis,' and doubtless will be soon settled by the popular Phails, who has never failed at anything yet.

The American mail steamer left this morning; owing to the heavy rain few were able to go on board to see their friends off. The U.S. Consul here, Mr. Munroe and family, Mr. Middleton, late Secretary of Legation, Mr. Wieder of Folmar's and Co., and a crowd of others all took their departure in her; but for the heavy rain half the English and American population of Rio would have gone on board.

At the Imperial Arsenal there is as much doing as if Brazil was determined to get up 60,000 more sailors as well as soldiers. The Arsenal is really a splendid establishment, a credit to Brazil, and shows how the public moneys were spent before the war began.

LATEST FROM ENGLAND

We have just received the *Plymouth News* of Sept. 3rd. which contains some later intelligence than we published yesterday, viz—

London, Thursday Evening.

'La Presse' of to-day states that the Emperor was obliged to leave the Council several times during the sitting yesterday, over which he presided, and that it must be a long time before his Majesty can mount a horse again.

The majority of the famous Harvard crew dined in Liverpool at the residence of the Hon. Mr. Dudley (American consul) last evening. This morning they lunched at Mr. William Inman's, Upton Manor, and in the afternon they left England in the Inman royal mail steamer City of Antwerp.

The Dublin correspondent telegraphs that the Maynooth resolutions of the Roman Catholic bishops have appeared to day. They demand an exclusive Catholic College endowed by the State; a division of the property of the Royal and endowed schools; an alteration of the Queen's Colleges to denominational institutions, and a land bill.

News from Constantinople states that Talast Pasha, on arriving at that capital with the Viceroy's reply to the Sultan, forwarded a copy of the letter to the representatives of the Great Powers, with a note, in which the Khedive appealed to their amicable intervention. The 'Constitutionel', in reprinting this intelligence, states that the Khedive, in his reply, gives an explanation repecting the question of the armaments. Without disputing the non-abrogation of the firmans which interdict the Egyptian Government from having any vessel of war, and which limit its army to 18,000 men, he recalls the fact that since Mehemet Ali all his predecessors have actually had a superior military and naval force. The tacit recognition of this fact by the Porte and by all the European Powers justifies him in the course which he has adopted.

The 'Musical World' says that at a concert lately given by the Auckland Choral Society to the officers of the fleet, his Royal Highness the Duke of Edinburgh took part as 'first fiddle.' In the opening piece he played with Colonel Balneavis and the other violinists.

Mr. W. Brown, champion sculler of America, has arrived in Liverpool. He brings a paper boat, weighing only 22lb., and is going to scull a match with the champion of the Thames.

EDITOR'S TABLE.

What we may call the 'Ides of October' have come and gone, yet the world still wags as usual, notwithstanding the fears entertained by many that the Day of judgment was at hand. We hope our friends in Rio have escaped equally well. It is generally anticipated that the next mail from the West Coast will bring us news of serious earthquakes having occurred there about this time. The heavy rain that fell on Monday night and throughout yesterday was wanted in the camp districts, and will be productive of great benefit.

The loss of two vessels laden with rails and materials for the Central Argentine Railway has caused a suspension of the works, and an apprehension has for some time been generally entertained that in consequence they could not be finished in the stipulated time. We are happy, therefore, in being able to give Mr. Wheelwright's reply to a letter addressed to him on this subject by the Chairman of the Cordoba Exhibition Committee.

"B. Ayres, Oct. 1 1869.

"I have the honor to acknowledge receipt of the Committee's letter, bearing this day's date, in which I am asked to state whether the Central Argentine Railway can be completed to Cordoba before the month of October 1870. I beg to state as far as I can at present judge it will be finished in the month of February next. I avail myself of this opportunity to offer the Chairman the assurance of my high consideration.

"W. WHEELWRIGHT.

"To D. E. Olivera, Chairman, &c."

We think Mr. Wheelwright's letter may be taken as conclusive on a matter in which the general public take the greatest interest.

"Judgment has been delivered by the Superior Court in the famous Gomez Gavotti case. The judgment declares that the Court below was not justified in ignoring the accusation against the minor or in ordering his liberation; on the contrary, the Upper Court says that sufficient cause has been shown why the accusation should be proceeded with in all its bearings, until a final discussion be arrived at. The case has consequently been sent back to the Court below now to proceed with it on its merits. We understand that rooms had been taken for the minor in one of our first hotels in anticipation of his release, but by this decision of the Superior Court his captivity is prolonged 'sine die,' or at least till the Court decide on his application to be released on bail.

The Belgians in this city gave a banquet on Sunday last in honour of the thirty-eighth anniversary of the Independence of their country. Mons. Pecher, the respected Consular representative of Belgium, presided. Numerous toasts followed that to his Majesty King Leopold, who is deservedly beloved by his subjects at home and abroad, and whose health was drunk with the greatest enthusiasm.

The Hon. William Stuart and Mrs. Stuart leave to-day for Cordoba for a short sojourn in that charming locality. During their stay at Rosario 'en route' they will be the guests of Mr. and Mrs. Wheelwright.

The Minister of Finance has just received a letter from H. E. Sr. Riestra respecting the result obtained by the first attempt (lately made) to export live cattle to England. The animals arrived in England in very poor condition, having suffered much during the passage; nevertheless they were sold at the high price of £17 stg. each. If such a result has been obtained under the unfavourable circumstances attendant on a first trial, it is but reasonable to suppose that with the large steamers now being constructed expressly for this traffic, the most complete success will yet be arrived at. The effect of this first successful experiment on the future of cattle and sheep-breeding in this country must be most important, for the profits to be derived from the trade are enormous, and it will supply us with a market for our extra stock, in which there is certain to be an ever increasing demand.

The Chambers threw out on Monday the bill proposing a loan of 4,000,000 for the establishing of wool washing manufactories throughout the Republic. Such a result was to be anticipated, for the project was one without any merit whatever, and involved the ignoring of the simplest principles of sound political economy and finance. The measure was brought in by the Opposition, and was condemned by public opinion from the moment it was first mooted.

H. E. President Sarmiento had so much recovered on Monday that he was enabled to attend at the Government House as usual. Although still suffering from the effects of his late attack, H. E. is on the road to perfect restoration to his usual robust health.

We received yesterday a most interesting article on Madame Carozzi, the great prima donna, who will shortly pay us a visit. The flattering terms in which it is couched fully bear out and sustain the fame this singer has acquired for herself in the sister city.

We regret exceedingly to hear that Don Luis V. Varela, Under Secretary for the Interior, has been for some time seriously ill. The complaint from which he is suffering is of a pulmonary nature. We hope sincerely for his speedy recovery.

We beg to remind all lovers of good music that Madame and Mons. Pfeiffer give their third concert on Thursday evening next. There will be an effective chorus of ladies and gentlemen who have kindly volunteered their services, and this concert promises even to excel in interest these already given by this talented couple since their return to the River Plate.

We remind our readers that the sale by auction of Mr. Gregory's furniture comes off to-day. Particulars may be found in our advertising columns.

Instructions have been sent by the British Admiralty, to the commanders of the different stations of the English navy abroad, to the effect that the vessels under their orders are not to leave between the 5th and 15th of this month, in order that the crews may be able to render assistance should the earthquakes predicted take place. This step on the part of our naval authorities deserve high commendation, and will no doubt tend to the saving of life and property in many countries, for little doubt exists as to the occurrence of the dreaded disturbances.

We notice in the columns of a morning colleague a statement to the effect that the Government intend reducing the effective of the metropolitan police force by one half. We sincerely trust, and are inclined to believe, that the rumour has but slight foundation, for it is notorious that the present force is inadequate for the proper security of life and property within the city, although Mr. O'Gorman has lately done wonders towards bringing the men under his command into better training, the effects of his exertions being apparent in many ways. Nothing could be more suicidal than the adoption of the measure referred to.

The Provincial Bank has issued a notice intimating that none of the new $5000 notes on which the vignette (that of Dr. Velez Sarsfield) has been defaced will be paid by the bank. It appears that some silly persons have thought proper to give the Home Minister in effigy, with the aid of pen or pencil, his suite appendages not possessed by the great original, thus defacing the notes, by a proceeding only to be tolerated in schoolboys.

Some of our contemporaries disagree with us as to the time fixed for the Day of Judgment, naming to-day (the 6th) as the date for the end of all terrirotial things. We observe that the alarm has spread from Rio to the Queen City, where all the 'old women of both sexes' are represented as calling in their lawyers and pet clergymen to assist them in making their wills. The fright inspired by the approach of Doomsday seems to have blinded the Orientals to the incongruity of this proceeding.

There was a serious affray at the Boca on Sunday night amongst the Italian labourers. The police interfered and succeeded in putting it down, but one of their numbers, Commissary Escobar, was seriously wounded in the 'melée,' having received a stab in the abdomen from one of the rioters.

Letters from Baradero state that all the houses on the banks were flooded in consequence of the sudden rise in the river during the last few days. Later accounts represent the waters as receding a little.

A funeral service in memory of Don Carlos Massini was celebrated yesterday in the church of San Miguel. A company of the 'Provincial Guard' was in attendance to render the last military honors, and a number of officers of the army were present.

We observe that Don A. P. Lezica retires from the firm of Lezica, Molbran and Co. The business of the late partnership will henceforward be carried on under the style and title of Molbran and Chayla.

Dr. Avellaneda, Minister of Instruction, will, it believed, leave for Cordova in about a fortnight.

THE ASCENT TO PETROPOLIS.

About half-way up we came upon a paper mill, where very excellent paper is manufactured: neat cottages, with beautifully-cultivated patches, bedeck the roadside. We once changed mules on the road, and when near the top stopped to drink the ferrugineous waters which come bubbling down from a bleak granite peak. At half-past five o'clock p.m., we arrived at Petropolis, where we found rooms prepared for us, at the Hotel Braganza; mine host a plethoric Belgian, M. Dujardin, received us all with immeasurable attention, and at six p.m. we sat down to a superb dinner in the clouds.

The city of Petropolis is of recent date, and owes its existence to the unceasing efforts of the present Emperor and his father. The place to-day may be regarded as a German town. On all sides we see the white headed children, descendants of the Fatherland. The first colony of Germans arrived in 1837, who were brought out by the Engineer Koeller. The Government took good care of them, gave them homesteads and farms, and to-day they are all happy, well-to-do farmers, comfortable, independent, and happy. Our coachman, who was a Prussian, informed us that there are over 6,000 Germans in and about Petropolis. In 1845 and in 1846, arrived other batches of Germans, all of whom settled at Petropolis. The place underwent many vicissitudes, however, until 1850, when the yellow fever made its appearance in Rio—"no hay mal que por bien no venga." The yellow fever built up Petropolis, and in less than two years this rude "fazenda" of the Emperor sprang into the dimensions of a Celestial city.

The main street has the river running through it, spanned by about a dozen beautiful bridges. M'Dougall's Hotel has been the favorite resort of British travellers, but is now rented to Mr. Blow, the American Minister. Mr. Buckley Mathew, the British Minister, has a stately mansion with a fine garden. General Pannero's residence is one of the finest in Petropolis. The General and his daughter Mrs. Pividal, showed us the house and grounds, and seemed very glad to see us. General Pannero's house faces the palace, and is in the most fashionable quarter. During the summer months the whole Corps Diplomatique reside at Petropolis. Even in the very hottest months the weather is delightfully cool, and blankets are required at night.

Petropolis has lost much of its importance since the Paraguayan war began, owing to the Emperor's fixed resolve never to visit his Versailles until the war was over. This year, however, as his Majesty has expressed his intention to pass the summer there, M. Dujardin states that there is a rush for houses, rents have gone up, and the fortunes of Petropolis seem to brighten. We met at the hotel a Buenos Ayres acquaintance, Dr. Brito, who some years ago, when in charge of the British Hospital, in Calle Bolivar, knew Standard Hall and its neighborhood. The doctor is brother-in-law of Sr. Carrasco, of B. Ayres merchants) all know the Firm of Carrasco and Ori), and was well pleased to meet us.

We visited the following day the princely residence of Sr. Raton, 400 feet higher up, called La Presidencia, one of the sweetest imaginable spots in the clouds, teeming with ripe strawberries and camelias; unfortunately the proprietor was not at home, but a neat slave girl led us through the gardens and across an artificial lake. We also drove through the farms of the German colonists, where we saw health and happiness on all sides, and at a late hour drove back to the hotel, to again partake of the hospitality of M. Du Jardin. Mr. Millegan, the only English resident in Petropolis, called to visit Mr. Basto in the evening; this gentleman, we believe, built the Maua Railway, and for many years superintended it: he has recently returned from England, and says the world round there is no place like Petropolis.

FRAY BENTOS.

"The dirty, yet picturesque little town of Fray Bentos," to borrow from the words of one of your former correspondents has been during the last few days the scene of great excitement among the store keepers, and tradesmen of the place, caused by the Government of Paysandu having thought proper to examine into the Patenté, weights and measures of the said shop keepers.

Hardly a house of business in the town has escaped being fined, and in many cases very heavily; and as a large portion of the fines go to the Comisario and Policia, it has been a great event for them, as owing we suppose to scarcity of money; these officials have not received their pay for the last five or six months, and were in the last stage of destitution. We are glad to say also, that the authorities here have imposed a tax on dogs, and any not having a collar with the Policia stamp on, will be poisoned at once; and provided the carcases of the animals poisoned are removed from the town, so as not to cause cholera, and also that the subordinates of the Policia in their too great zeal, do not go beyond their power, and poison dogs whose owners have paid for collars, we think the scheme a very good one, as at present ugly and ill-conditioned curs seem to have the town all to themselves, and far exceed the number of inhabitants.

The Saladero is doing very little work just now, owing we believe to the cattle being scarce and in poor condition; the workmen are for the most part busily engaged in making improvements; among the principal of which may be mentioned, the widening of the 'muelle,' which was much wanted, and a new shop for the engineers, neither of these are as yet finished.

Two English vessels arrived last week from Cardiff with coal, but it is expected they will not receive a homeward freight; the Captain of one of the ships says he would gladly wait a few weeks, if he could obtain a cargo of wool, &c., this would be a good opportunity for estancieros in this neighborhood anxious to ship their wool direct this year.

We believe, the new English church and school are almost finished, and every effort is being made to accomplish this by Sunday next, when it is expected many visitors from Montevideo will be here to attend at the opening. The site is very good and we hope some day not far distant Fray Bentos will contain a sufficient number of English people to fill the church; we fear at present the congregation will be very small.

Sheep are rising in value here there having been a sale some few days since of between three and four thousand in this partido at 8 reals each; this has tended to raise the spirits of the sheepfarmers, which were at a very low ebb,

Few estancieros will ship their own wool direct this year, as the majority suffered by so doing last season, and will prefer a certainty to an uncertainty now.

Shearing will commence the beginning of October, but we think many sheepfarmers in a small way about us will not shear at all owing to the excessive rains lately. The cricket match between Gualeguaychu and this side has been postponed, as it was impossible for the players to get to town by September 22nd, the day fixed for the match, owing to all the arroyos being very much swollen; so great indeed was the flood that the Rio Negro rose 20 squares in many places. The prevention of the cricket match was felt by some, but as the majority of the players are sheepfarmers, and as the rain has greatly improved the camps and fatteued both cattle and sheep we imagine that the disappointment has been but lightly felt by these gentlemen. A carrier's cart has lately been started to run once or twice a month between Fray Bentos and the camp districts, and will we have no doubt under good management succeed; the spirited proprietor hopes soon to receive from England a light cart on improved principles, both to carry passengers and goods.

Chacras and quintas are springing up on all sides outside the town, and we hope soon to equal, if not, to excel our neighbour Gualeguaychu, in the production both of vegetables, alfalfa, and maize.

There is a talk of starting an English Race Club here, but we think, that there are not a sufficient number of Englishmen to carry the project out successfully.

A RESIDENT.

THE CENSUS.

From the manner in which the Enrollers [empadronadores] went through their work in the country districts, I have no hesitation in stating that, the returns will fall far short of the real number of inhabitants in the rural districts. I am inclined to believe that the working plan of the district from which I write—Las Flores—was very little different from that of other districts: the enrollers did not go, as in duty bound, to every house; they went to the estancia houses, and there made enquiries as to the number of inhabitants at the different puestos. Now, the owner or mayordomo of an

estancia may know the number of men in his employment, but he decidedly does not know their ages, nor that of their families; nor can he possibly know the number of idle vagabonds, and loose conducted women that may be staying occasionally at his puestos; it frequently happens that travellers make a stay of many days at these puestos, to rest themselves and their horses; people out of employment also make these puestos their hotels. Consequently, the great bulk of the vagrants, of the frail fair sex, of travellers, and of people out of employment, must have escaped the enrollers in the rural districts.

In some cases, perhaps in all, they did not even go to every estancia, but contented themselves with enquiring of the next neighbor the number of inhabitants in the adjoining estancia, To make the Census yet more incorrect, the subdivisions of the 'partidos' are so badly defined that many houses on the limits of 'cuarteles' and 'manzanas' must have entirely escaped the enrollers, Commissioner A. passing house number one unnoticed, in the belief that it belongs to Commissioner B's, division, and the latter passing it by in the belief that it belongs to the former. These errors are of every day occurrence in our admirable civil administration, and will ever continue so while the principal rural authorities are nominated merely for their electioneering qualities.

The Census returns will also show a greater number of married inhabitants than the marriage registry books; many having returned themselves married who forgot to get the Priest's blessing.

I cannot vouch that my statements will hold good if brought to bear on every 'partido' in this province, although I rather think the cap would very nearly fit all; however, I can vouch for their correctness in at least two 'cuarteles' of Las Flores.

Notwithstanding, the Census will be very useful, and President Sarmiento deserves all praise; had it embraced the colour of the inhabitants it would be more perfect; a knowledge of the shades would be a necessary statistical data.

DICK.

MISCELLANEOUS.

The Supreme Court of North Carolina have just decided that intermarriage between a member of the coloured race and a member of the white race is unlawful, and therefore void, according to the laws of the State.

A French concern, the Campagnie des Chantiers de la Seyne, is understood to have been charged by the Turkish Government with a colossal work—a great girder bridge of boats to unite Stamboul to the suburb of Galata. The length of the bridge will it is affirmed, be no less than 6,000ft.

It is understood that George Cree, Esq., Barrister-at-law has been appointed Professor of Law, in Queen's College, Cork, in the room of the late Michael Barry, Esq., deceased.

The 'Jewish Record' says that the Synod of Jewish Rabbis, which has just been held, has recognized three new principles—1. individual authority in religious matters; 2, the primary importance of free scientific investigation; and 3, the rejection of the belief in Israel's restoration. The Synod also recommends choral services and the use of the organ in the synagogue, and musical performances on Sabbaths and festivals.

The fête of the Emperor Napoleon is to be celebrated with great pomp on the Suez Canal works, as the waters of the Red Sea are to be admitted on that day into the remaining Bitter Lake. All the "travaux á sec" will then be terminated, and the canal, it is currently reported, have twenty four feet of water in its whole course before the 17th of November, the presumed day of its opening. The Viceroy will be present, it is said on the 15th.

It is not easy to estimate the demoralising effect on the youth of Europe of the cigar, in enabling them to pass their time happily in idleness—"Queen of the Air," By John Ruskin.

ON 'CHANGE.

Oct. 5th.

Patacons	25
Sovereigns	122½
Ounces	490
National Bonds	67½

There was little doing owing to the rain.

The struggle between bears and bulls is yet undecided: some say Bonds will go up to 80, but the amortization will afford us the best guide for all anticipations,

October 4, 1869.

At the South Plaza very few transactions as usual on Monday.

We noted the sale of a lot of dryhides 'todo a la balanza,' at $133.

1000 ar. metiza wool from deposit at $38.

One large lot sold at $72.

120 bord. tallow in shipping condition 15½ rls. fts.

October 5th.

At the South Plaza no transactions on account of the rain.

1.15 p.m., arrival of the Chascomus train; all right, camps full with water.

SOONER OR LATER, a neglected Cold will develop a constant Cough, Shortness of Breath, Failing Strength, and Wasting of Flesh—the avant couriers of Consumption. In some instances the same cause will produce Bronchitis, a disease of the branches of the windpipe. In all affections of the Pulmonary Organs, as well as in Bronchial Affections, Dr. Jayne's Expectorant is both a palliative and a curative, as the testimony of thousands, and its world wide reputation attests; while in Coughs and Colds it acts speedily, and when taken according to directions, promptly removes them. Why not give this standard remedy an immediate trial? Sold by all Druggists.

STEAMBOATS TO LEAVE.

EXTRACTO FLUIDO DE CAROBA.

This excellent Tonic has been highly approved of by the Faculty as the best Purifier of the Blood ever yet known, quite throwing into the shade the much over-rated Sarsaparilla, which, in all cases, has a most debilitating effect on the digestive organs.

THE EXTRCATO FLUIDO DE CAROBA.

However, has quite the contrary effect, being a great strengthener of the Stomach, as well as Purifier of the Blood, and also a most agreeable Tonic. It has also been found a most efficacious remedy for the cure of skin diseases, and especially adapted for hot climates.

TONIC MONTEVIDEANO FOR THE HAIR.

The Tonic Montevideano is a most marvellous preparation for cleaning, beautifying, preserving, and restoring the Hair, and does quite away with the necessity of using Oil, Pomatum, and other preparations, which ruin the hair, making it the receptacle for all dust and dirt it comes in contact with. This Tonic, also mixed with water, makes a most delightful wash, and gives a smoothness, and at the same time exquisite perfume, to the skin.

No Toilet Table then should be without this most desirable Preparation,

Each Bottle bears the Seal and Signature of—
CAMILO WEBER,
Professor en Farmacia,

TRANSITORY PERFUMES—The overpowering European perfumes are as transient as they are strong and pungent. Bah! what a nauseous odor they leave us a leagey when the first fragrance passes off. The best of them do not compare with Murray and Lanman's Florida Water, which is characterised by a delicacy and freshness belonging to no other article of its kind. It is literally the aromatic principle of the rarest blossoms of the land of the camellia, the orange, and the magnolia, fixed and intensified in the purest spirits. This cannot be said of any other toilet water, not even of the best Rhenish cologne, of which an essential oil is one of the components. Murray and Lanman's Floriday Water [be sure and ask for Murray and Lanman's, for there are counterfeits in the market] is the only perufme that can be pronounced absolutely perfect.

Saladin	510	La Plata	1,393

The Postmaster-General of Her Majesty's Government has concluded a contract with the Liverpool, Brazil, and River Plate Steam Navigation Company, Limited (Messrs. Lamport and Holt's Line), for a second regular Mail in each month by British Packet to Brazil and England.

The new Mail Steamers will leave Buenos Ayres on the 9th of each month, and are intended to proceed to Montevideo, Rio Janeyro, and Bahia, and thence to Southampton or Liverpool.

The Service is so timed as to afford opportunity for letters received in England by the New Line; to be answered by the outward-bound Mail Steamer of the same Line, which leaves Liverpool on the 20th of each month (unless that be Monday, and then on the 21st.)

Neither consignees' despatches, nor letters of any kind can be received by us for conveyance by the Mail Steamer of the 9th.

Due Notice, respecting the posting of Letters will be issued by the Post-office authorities.

Mail Steamer FLAMSTEED,
1276 Tons,
KIDD, Commander.
Will be despatched from Buenos Ayres for LIVERPOOL,
Via Montevideo, Rio de Janeiro, and Bahia, on SATURDAY, 9th OCTOBER.

Cargo will be received on Board until Noon on the day of sailing.

Parcels and Specie at the Office of the Undersigned until ONE P.M. of said day.

Freight and Specie—One-half per Cent,

These Steamers have excellent accommodation for Passengers, and carry Surgeons and Stewardesses.

RATES OF PASSAGES,
AS FOLLOWS:—

Rio de Janeiro	f$ 50
Bahia	70
Liverpool	£ 35 sterling

The usual allowance made to families.
Steerage passages: One-half.

FIRST-CLASS RETURN TICKETS, with a deduction of 25 per Cent, available for Twelve Months.

Tickets granted to parties here wishing to bring out their friends.

Dr. Radway's Remedies
IN FRANCE.

EXTRACTS FROM THE PARIS PAPERS.

Of wonderful cures of Asiatic Cholera, Disentery, Colics, Diarrhœa, Cramps, Twenty drops of Radway's Ready relief in a tumbler of the seine water and other drinking waters containing large quantities of Chloride of Sodium, Magnesium, Lime stone, and other diuretic and diarrheatic constituents, that runs through the system like quicksilver, causing the most painful discharges from the bowels and bladder, protects all who drink of these waters from pain, inconvenience, and continued draining, either from the bowels or urinary passages.

GREAT CURE OF
OVARIAN TUMOR OF TWELVE YEARS' GROWTH BY RADWAY'S SARSAPARILLIAN RESOLVENT.

Some weeks since trustworthy information was sent us of the marvelous cures effected by Radways Ready Relief, in Paris, of persons suffering painful discharges from the bowels and urinary passages, caused by the drinking of the Seine and other waters, and of Cholera, Diarrhea, Dysentery, Cramps, Colics, &c., and Diabetes Urinary Diarrhea, Weakness, Irritation, and Inflamation of the Bladder, by diluting 20 drops of Radway's Ready Relief in a tumbler of water. The Ready Relief used in this way proved not only a sure cure, stopping the most severe pain in from one to twenty minutes, but was found to be a more strengthening tonic, appetizing and delightfully refreshing beverage than the best French Brandies or Bitters. As a further evidence of the superior excellence of Dr. Radway's Remedies, and the wonderful success they are meeting with in France, especially Paris, the home of medical genius and the city of modern sciences, where the most eminent of American physicians go to complete their medical knowledge, we present the following unsolicited and freewill testimonial of the great curative virtues of Dr. Radway's Remedies, from the

CONSTITUTIONAL GAZETTE.

Published at 6 Rue Scribe, Paris, July 12, 1869.

It will be seen by this report that Radway's Remedie Relief has cured 'Asiatic Cholera.' Radway's Sarsaparillian resolvent, 'Consumption and Scrofula,' Radway's Pill, 'the best purgative and corrector of the system.'

These simple medicines have out cured and achieved a complete conquest over the best medicinal skill in Paris, in fact of the world Dr. Radway would here state that the following testimonial was published with said newspaper, and the publication of the same in the Gazette he can only attribute to the sincere regards of the publishers for the 'Public Good.' The great success of these remedies in Paris, where our American doctors go to perfect themselves in medical knowledge, leave them very far in the rear. Radway's remedies beat the instructors of our medical men. Read the testimony.

THE EFFICACY OF ROOTS AND HERBS.

The march of experimental science, since the begining of the present century, is something astonishing. The great treasury of nature has been opened, and though we have but just put our hands on what lies under the lid, we have seen enough to infer what is below, and what is yet in store forus.

The dark ages wasted much time in strife and ignorance, and were still infants in the march of improvement, but better things are daily dawning upon us. Thus, to confine our attention to our walk of improvement in science, what strides have been made toward purifying our cities and improving our medical treatment. The Romans, it is true, had found the salutary virtues of water, and used it freely. But water is one (and a great one) among thousand sanitary powers that lie neglected at our feet.

We are just beginning to wake up to the fact that every root and grass at our feet has virtues beyond price. Yet the very dog and cat might have taught us the truth; and now civilized man has often to go to the savage to receive the secret of some wondrous power in a neglected herb.

Happy man to have reached a day when the sanguinary and poisonous phase of mineral drugging is nearly over. It is evident that a milder vegetarian materia medica will soon supersede it; and the remark of Napoleon I. to Dr. Corvisart: 'You have killed more men than I have,' will not be applicable to future leeches.

We have been led to these reflections by considering Dr. Radway's new and admirable discovery, which appears destined to supersede much of the misery and mischief caused by what has hitherto been called Medical Treatment. It would exceed our limit to expatiate on all that it has been proved to do; but we may add that ample experience has now show that consumption and scrofula, even in agravated forms, give way before it, and that it has the rare power of disolving calculi.

Then, again, Radway's ready relief is sure cure for cholera, and stop the most violent pain, either internal or external, in from one to 20 minutes. Nor can the charge of imperfect testing be applied to it, for it was tried throughout the war, both as a preventive and cure of all mategnant and malarios fevers, dysentery, colds, and rheumatisme—and the result was marked success.

Then, again, Radway's Pill are a perfect boon to a large class of invalids, for they are both a purgative and corrective.

One of these pills used as a dinner pill insures a good digestion, and will cure dyspensia.

We may add, for the interest of those in Europe ignorant of the matter:—

That the secret of Dr. Radway's Sarsaparillan Resolvent in curing Consumption and Scrofula, of disolving Tumors, Calculi, Stone Gall Stone—is its Resolving properties of melting away, so to speak, of hard substances; of its supplying the blood with the constituents of life, vigor, strength richness, and purity, and enabling this great source of life to hold in solution all its constituents. It is not an accidental discovery of simples, gathered at random by inexperienced persons, but a scientific combination of vegetable substances yielding great medicinal properties—culled from the vegetable kingdom by experienced botanists, and subjected to the tests of the most searching and powerful chemical analysis—and combined and associated so as to secure perfect harmony of the ingredients used, in accordance of their Pharmaceutical Equivalents; in fact, it is the most scientific combination of ingredients, possessing medicinal or remedial properties of the vegetable kingdom in vogue. Truly has Dr. Radway of New York given to the Old World in his Ready Relief and Sarsaparillian Resolvent the nucleus of a new system of medicine.

That it is entirely composed of Roots and Herbes.

That it is in such repute in America, that it has large laboratories in New York and at Montreal.

In short, it appears full time that the attention of Europe should be directed to this great advocate in medicinal treatment, which amounts to nothing less than a almost revolution, overthrowing the ancien regime of mineral poisons and violent purgatives.

OVARIAN TUMOR CURED.

Never has a medicine taken internally been known to have cured tumors either of the womb, uteri, ovaries, or bowels: the knife has been the sole reliance in the hands of experienced surgeons, but Dr. Radway's Sarsaparillian settles this question, for it has cured over Twenty Persons of Ovarian Cysts and Tumors, as well as Tumors in the Bowels, Uterus, Womb, Liver-Dropsical Effusion, Ascites, and Calculus Concretions. The known ingredientr of Dr. Radway's Resolvent were claimed by Sir Benjamin Brodie—used in their crude form, uncombined, to to possess the power of dissolving stone in the bladdder, and curing all irritations of the Bladder and Urinary Organs, of correcting and checking great and involuntary discharges of water, and now in the present improved and scientific combination of these ingredients in the Sarsaparillian Resolvent, it will more effectually cure and remove Tumors and all other hard substances.

It is called 'Resolvent,' for it discusses and melts away Tumors, Nodes, Hard Swellings, Lumps, Concretions in the Joints, Groin, Testes, Bladder, Kidneys, &c., and will save the patient the painful necessity of undergoing operations of the surgeon's knife.

The following letter or certificate of cure was received on th 20th day of July, 1869. The lady is unknown to us, but she is well known in Beverley, Mass.; those interested can write to her and make inquiries of her status of the select men of the town. We publish the letter at the lady's request:—

TUMOR OF 12 YEARS' GROWTH, CURED,
By Radways Resolvent.

Beverly, Mass., July 16, 1869.

Dr. Radway—I have had Ovarian Tumor in the ovaries and bowels. All the doctors said—'there was no help for it. I tried everything that was recommended, but nothing helped me. I saw your Resolvent, and thought I would try but had no faith in it, because I had suffered for Twelve Years. I took six bottles of the Resolvent, one box of Radway's Pills, and used two bottles of your Ready Relief, and there is not the sign of a tumor to be seen or felt, and I feel better, smarter, and happier than I have for 12 years. The worst tumor was in the left side of the bowels, over the groin. I write this to you for the benefit of others. You can publish it if you choose.

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maua & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned; Sundays an holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. Maua & Co.,

M. A. de FREITAS AMORIM.

CONDITIONS

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Four—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wished can open an account current, according to the rules established by the Bank.

Fifth | In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

P. P. Mauá & Co.

Office of the South American Navigation and Marine Railway Company,
Colonia, June 7, 1869.

NOTICE TO SHIPOWNERS AND SHIPMASTERS.

The Marine Railway at Colonia being completed, public attention is called to the following Tariff of Charges:

Capacity of 500 Tons, dead weight.

Sailing Vessels and Steamers of over one hundred [100] tons, English or American measurement, will pay a rate of one dollar ($1.00) per ton gold, for being taken up. Each nominal horse power of engine in steamers, will be charged for as an additional ton of measurement.

Sailing Vessels or Steamers, whose entire registered tonnage and horse power of engines does not equal one hundred (100) tons, will pay the rate of one hundred [100] tons.

All cargo will pay one dollar and a-half (1.50) in gold, per ton, for being taken up, and the regular rates for laying on.

For laying on the Railway, from the hour the Vessel or Steamer is properly up, for each twenty-four (24) hours, seventy-five ($0.75) cents. per ton. in gold, and any twenty-four (24) hours entered upon will be charged as a full day.

Wrecked Vessels or Steamers, whose bottoms are broken, will not be taken at the regular rates, but must make an especial agreement with the Company's Agent at Colonia.

No charge will be made while laying on, for Sundays or stormy days, when no work can be done below the load line of the Vessel or Steamer.

REMATE.

THE ONLY PAIN REMEDY
That instantly stops the most excruciating pains
ALLAYS INFLAMMATIONS AND CURES CONGESTIONS,
whether of the Lungs, Stomach, Bowels, or other glands and organs, by one application,

FROM ONE TO TWENTY MINUTES.

No matter how violent or excruciating the pain, the Rheumatic, Bedridden, Infirm, Crippled, Nervous, Neuralgic, or prostrated with disease may suffer,

RADWAY'S READY RELIEF
will, in from One to Twenty Minutes afford ease and comfort.

RHEUMATISM and NEURALGIA.
RHEUMATISM and NEURALGIA.
RHEUMATISM and NEURALGIA.
RHEUMATISM and NEURALGIA.
RHEUMATISM and NEURALGIA.
RHEUMATISM and NEURALGIA.

If those who are now suffering pain—no matter what the cause may be, or by what name it is called—if external apply apply the RADWAY'S READY RELIEF to the part of the body where the pain is present. If Internal

Twenty Drops Diluted in Water,
As a drink; whether Cramps, Spasms, Inflammation, Congestion, Asiatic Cholera, Chills, and Fever, the most violent, excruciating, and tortuous pains will be stopped

In from One to Twenty Minutes.

VERY IMPORTANT TO LADIES.

RADWAY'S READY RELIEF IS THE BATH OF BEAUTY.

One Tablespoonful of Radway's Ready Relief to one Pint of Water.

By sponging the body, face, neck, &c., with this, the body enjoys a delicious bath, refreshing, enlivening, and erasing the dormant, languid oppression, and melancholy feelings, of joyous and pleasing emotions; and if suffering from headache or catarrh, bathe the head and snuff the Relief and water up the nose, in a few moments all disagreeable feelings and pains will disappear.

RADWAY'S READY RELIEF,

Used as a Sponge Bath, in the proportion above, deodorises the offensive effluvia from perspiration, and the unhealthy excretions of the skin, and imparts a more agreeable aroma than the most choice and favorite perfumed and Cologne Waters.

J. RAUNHEIM, CHIROPODIST
81—CALLE SUIPACHA—81.

eels great pleasure in again introducing him self (after an absence of six years) to the respectable Public of Buenos Ayres, cordially inviting all who suffer from Corns, Bunions, irregular Toe-Nails, or other Diseases of the Feet, to pay him a visit, at any hour from 8 to 11 a.m., or from 12 to 4 p.m.; Sundays and Holidays from 9 a.m. to 3 p.m.

All operations performed with the greatest despatch, without pain or loss of blood, and a perfect cure guaranteed in every instance. Prices moderate. Consultation Gratis. 126 xp

THE BATTLE OF LIFE.

Which is continually going on between health and disease, has never received from any Medicine such marked and unmistakable assistance, on the side of health, as it has from

ERISTOL'S SARSAPARILLA.

This powerful vegetable detergent has been fully tested in nearly every part of the civilised world. It has been tried in long-standing cases of

SCROFULA,

and has invariably been successful in curing them. It has been again and again tested in Fever and Ague, Intermittent and Remittent Fevers, and always with the same excellent results. In

RHEUMATISM and GOUT

it is infallible, curing cases that had resisted al other treatment for nearly a lifetime, allaying every phase of inflammation, and leaving the joints in a natural condition. In

OLD SORES

it is a sovereign remedy—causing new circulation of the blood around the edges of the sore, are speedily filling up and drawing together the flesh; which in old sores is generally inert and lifeless. In

SORE EYES and RUNNING EARS

the effect is truly wonderful. The scrofulous and depraved blood and humors on which such sores feed and live, are neutralized at the stomach, the fountain-head, and now and healthy blood soon washes away every vestige of disease. In

ULCERS AND TUMORS,

the effect is equally gratifying, although, of course, it is necessary to persevere for some months in diseases such as those having their origin in bad blood and humors; and in such diseases as

CANCER,

the Sarsaparilla should be continued for at least four or five months after the trouble has to all appearance been overcome, because unless this is done, and the nature of the blood and humors be entirely changed throughout the whole body, the disease is liable to return with unabated force. In

BOILS and CARBUNCLES

the Sarsaparilla should be taken five or six times a day, but not in very large doses—say two or three tablespoonfuls at a time. And in all of these diseases we strongly urge the use of Bristol's Sugar-coated Pills, in conjunction with the Sarsaparilla, taking two or three Pills every second night on retiring to rest. In this way cures will be more speedily effected.

For Sale at all the principal Drug Stores,
And at the Agents,

NOTICE.

FINDING it impossible to spare the necessary time for the proper discharge of the duties of Alcalde, I have resigned the direction of Third Cuartel, Carmen de Areco, which I continued to hold during the last five years.

It is my pleasing duty to testify to the good conduct and respect for authority (when properly exercised) displayed by both the native and foreign residents of this Section, to whom I with every success, and may they find a more worthy individual to fill the honorable post of Alcalde than their

Most obedient Servant,
ARCHIBALD CRAIG.

Third Section, Carmen de Areco,
September 2, 1869.

Sundays and Holydays the Trains will run half hours, from 10 a.m. to 5 p.m., between Buenos Ayres and Barracas only.

These are the Holydays:—All Saints, San Martin, Concepcion, Christmas, New Year's Day, Adoration, and Holy Week.

No tickets will be issued or parcels received at the Barracas, except for Calle Lima, Plaza Constitucion, Barracas al Sud, and Lomas.

No extra charge will be made for the Tramway for passengers, per Railway, provided with proper tickets.

Passengers can procure tickets for any Station on the Line at the Lima Terminus.

Passengers travelling on the Tramway without a railway ticket, must pay $5 first-class, and $3 second.

The Tramway may also be used as Omnibus from Lima to Plaza Constitucion, people getting up and down at any point, except when full of passengers for train.

The cars will stop at any moment between Lima and Constitucion, to take up passengers.

Passengers for Barracas may get up at any point between the Stations above-mentioned, at the following tariff:—

Single—First Class	$5
Second Do	3
Return—First Class	$7
Second Do	5

Monthly tickets issued for the Tramway, Barracas, Bursaco, and Glew.
